

The Board of the Sonoran Conservancy of Fountain Hills wishes you a wonderful holiday season and would like to thank you for the support of the conservancy.

The conservancy is a non-profit organization established to support and maintain 740 acres of open space along the only wildlife access on the eastern side of the McDowell Mountains. Its work is supported by monetary contributions and the dedicated volunteers who build and maintain our trails, lead exercise and educational hikes and other programs introducing the public to our preserve and trails in the preserves, parks and national forests near Fountain Hills.

This coming year promises to be an eventful time for the SCFH. Along with continuation of trail building and maintenance and our hiking program, we hope to see construction begin on our long awaited trailhead. The trailhead will provide the public with much easier access to the preserve and to the adjoining McDowell Sonoran Preserve in Scottsdale and the McDowell Mountain Regional Park. It will also enable us to more easily provide educational opportunities for the public and the local schools.

We thank you and appreciate your past support and interest in our organization. Monetary contributions are always appreciated and help us provide tools and other equipment for our trail work. We also appreciate very much the hard work and dedication of our volunteers. If you are interested in helping us or have questions, please contact us at the following address or email.

And again, have a wonderful holiday season! Come work and play with us in 2017!
